

Meeting Minutes 17/01/2022

Team: 109, Date: 2022/01/17

Present: Aarsh, Jingfei, Ryan; **Absent:**

Agenda:

- Discuss results of interviews
- Briefly discuss personas
- Create requirements

Notes:

Licheng Zhang (TA):

- Recognizing handwriting/drawing?
- Calculator/math equations (could be latex)
- Noteability
 - Good note management and categories
 - It just works
- Likes calendar view (really cool!)

Ryan's interview:

- Needs ability to draw diagrams
- Frustrated at touchscreen support on OneNote
- Wants to be able to easily access older notes
- Wants notes to be readable
- Faster at typing than writing, but needs to be able to draw and write equations, so handwrites instead

Jeff's interview:

- Voice recognition
- tree like diagram - for review → click on the node to open documents
- Not really want latex, just handwriting
- Sharing feature would be useful! Possible to concurrent edit
- Export notes to PDF is useful!
- **Insert images is useful**
- **Highlighting text is useful**

Aarsh's Interviews:

- Calendar view of notes (view notes when they were first created)
- Being able to easily import handwritten notes (i.e show images from phone)

- The ability to organize notes via tags (courses, and projects)
- Being able to do basic formatting bolding, italicize, and font

Decisions:

- Leave personas for now
- Use Discord for working on code and messenger for informal discussion
- Will fill in details for stories, and assess feasibility offline, and discuss at next meeting
- Skip user-map & affinity diagram

TODO:

Put possible features on gitlab

- Open tickets (Jeff) [Done]
- Fill in tickets with details (everyone)
 - Also look into libraries
- Interview 1-2 more people (Ryan, anyone else)
