

Meeting Minutes 01/14/2022

Team: 109, Date: 2022/01/14

Present: Aarsh, Jingfei, Ryan; Absent:

Agenda:

Decide who to interview

Do personas

Notes:

Interviewees:

Software developer:

- do math equations (latex) and a calculator

Student

- Calendar view of the notes

List of questions to consider:

- What notetaking app are you using right now, what do you like about it and not like about it
-

Questions:

- What notetaking app?
- What do you not like?
- What do you like?
- Features
 - Calendar view
 - Markdown/latex to help with math equations
 - Pseudocode

Specific requirements for different personas

- Support markdown, or formula rendering tool (**CS students for writing pseudo code**)
- Concurrent read/write with classmates/others with permissions (**students doing teamwork**)
- Export notes to PDF (**students submitting assignments**)

Licheng Zhang (TA):

- Recognizing handwriting/drawing?
- Calculator/math equations (could be latex)
- Noteability
 - Good note management and categories

- It just works
- Likes calendar view (really cool!)

Decisions:

- Personas are math and software developing students
- plans for interviewing people
- Tentatively decided to do desktop

TODO:

- Do interviews (each person does 1-2) and put the notes in personas
- Set up Kotlin
